

The **Birmingham Math Academy** is recruiting new students from grades 3 to 10 for the fall semester, 2015. If you have math talented children, please join us!

The Academy is the one and only math program in metro Birmingham that targets talented math lovers. We teach mathematical concepts and creative problem solving skills at all levels. All major topics related to math tournaments are also covered.

The performance of our students says it all: In 2014-2015 school year, our students took home over 150 trophies in regional and national math tournaments. In certain divisions, we often take more than 2/3 of the top 10 trophies.

For more information, please visit our website: <http://birminghammathacademy.com>, and either email (beijing34@gmail.com) or call Wei Kong at 205-427-5831 if you have any questions.
